## Largest Combination of Mineral Ground in Bingham Attracts Notice.

The largest combination of mineral ground in one ownership in the Bingham district has recently been effected by the consolidation of the Bingham Central and the Bingham Standard copper companies, with the Bingham Metal Mining company, under the name of the Utah Metal Mining company, says the Boston News Bureau. Title to all claims and properties of these companies have been conveyed to the new company, in which embracing over 3,000 acres of land, of which over 1,000 acres are open and proved mineral ground.

The signal advantages claimed for this combination are:

First—More mineral acreage than all the other prominent companies in Bingham combined.

Second—Plenty of water for all power required for the construction, development and transportation, with surplus to sell.

Third—Plenty of timber for all mining, railway or any other known purpose.

Fourth—A tunnel from the Tooele side of West Mountain to Bingham, two miles in length, affording transportation for ore of this as well as other companies, to the new International custom smelter, reducing the present distance from Bingham to the smelter from thirty-five to seven miles.

Result—Lowest cost of construction, development and producing of ore; and, in addition, a transportation system of great value.

Large quantities of commercial value have been known to exist in these properties since the first days of the discovery of ore in Bingham, but owing to the difficulties of procuring cheap water, electricity and dumping ground, which affects every property in Bingham, they have not been worked systematically.

### Driving Deep Tunnel.

The economical development of these bodies has been solved by the deep tunnel which has been in course of construction from the Tooele side of West Mountain, the tunnel, in addition, affording water power sufficient for its mining and electrical machinery for boring the tunnel, extracting ore and transporting it. This tunnel, when completed will be the largest in dimension in the Bingham district.

The mineral properties acquired by the company are situated on the west side of West Mountain, on the Bingham side of which are several of the most famous mines of the district, including the Mountain Maid, Jeff Davis, Whitley, Julia S. Deems, Saginaw and Burning Mosquito.

The Mountain Maid tunnel is 950 feet long, and for 300 feet is in lead, silver, copper and gold ore, assaying \$38 a ton. Two hundred and fifty feet of the Mountain Maid tunnel is the Whitley tunnel, 2,000 feet deep, passing through some of the best rock in Bingham.

The Jeff Davis tunnel extends over 2,100 feet, cutting through some of the best copper sulphides with gold and silver values. These were penetrated to a depth of 200 feet and 200 feet of the tunnel, with a shaft of one hundred and fifty thousand tons of this ore have been brought out.

In the Amelia tunnel, above the Jeff Davis tunnel, the same ore appears, including 175 feet of stopping ground. The new deep tunnel under construction from the Tooele side of West Mountain should cut this ore body at a depth of 500 feet below the Jeff Davis tunnel. Two hundred and fifty feet of an ore body 300 feet in length, 150 feet wide and 675 feet high, which, estimating four hundred tons of ore, would yield over 2,000,000 tons of ore.

### Leasers in \$60 Ore.

From the Burning Mosquito claim, which is one of the most famous in Bingham, leasers are now taking out ore at the rate of \$60 a ton. The ore is being shipped to the smelter, and the leasers are being paid for the ore at the rate of \$60 a ton.

The new tunnel is constructed for 3,000 feet, cutting through some of the best ore in the district. The tunnel is being driven from the Tooele side of West Mountain, and is expected to cut through the ore body at a depth of 500 feet below the Jeff Davis tunnel. The tunnel is being driven from the Tooele side of West Mountain, and is expected to cut through the ore body at a depth of 500 feet below the Jeff Davis tunnel.

In order, however, to expedite the exchange of the shares of the Boston Consolidated Copper and Gold Mining company, which has been obtained from the liquidator, to make the exchange in this country on March 22, it was found impracticable to do so earlier because of the fact that the Utah company did not declare its dividend until March 11. The books of the Utah company were closed on March 18, and will be reopened on March 22. Arrangements have been made for the payment of the dividend on the Utah shares on March 21, 1910, will be anticipated so as to expedite this exchange.

## EXPERT WORK REVIVES TALK OF ALTA MERGER

Talk of deals pending which are likely to result in an important amalgamation of Alta mining properties has been revived the last few days. William Thornton, as representative of English and American capitalists, is due to go to Alta Tuesday, to be engaged during the week making examinations of the South Co. and the Blue Bird. Thornton's expert report upon those properties, it is said, will determine whether they shall be taken into the merger, which will include several other mines of the camp. Before returning, Thornton will go over his own Holly Flat group with the view of laying out new work.

The Utah Metal Mining company has been organized under the laws of Maine at a point 2 miles north of the south 2 mile, hence west 10 rods to the place of beginning, in Salt Lake City, Salt Lake County, State of Utah.

Both men and women suffer from overwork and over-worry, and so both may be cured by using the same remedy. The best remedy for such conditions is Sorex Pills; no matter how badly run down or how nervous and irritable a person may be, Sorex Pills are guaranteed to restore strength, health and energy. Price \$1 a box, six boxes for \$5, fully guaranteed on the money-back plan. Address or call P. J. Hill Drug Co., "The Never Substitutes," corner Second South and West Temple streets.

## Where Men and Women Suffer.

A. A. Duncan, Attorney for Petitioner.

IN THE DISTRICT COURT, Probate division, in and for Salt Lake County, State of Utah.

In the matter of the estate of Eliza Emily Pickard, deceased. Notice.

The petition of Martha E. Valley, executrix of the estate of Eliza Emily Pickard, deceased, praying for the settlement of final account of said executrix and for the distribution of the residue of the estate to the persons entitled, has been set for hearing on Friday, the 26th day of March, A. D. 1910, at 2 o'clock p. m., at the county court house, in Salt Lake City, Salt Lake County, Utah.

Witness the clerk of said court, with the seal thereof affixed, this 19th day of March, A. D. 1910.

MARGARET ZANE WITCHER, Clerk.

By L. P. Palmer, Deputy Clerk.

Howat & McMillan, Attorneys for Petitioner.

IN THE DISTRICT COURT, Probate division, in and for Salt Lake County, State of Utah.

In the matter of the estate of Henry R. Reiser, deceased. Notice.

The petition of Catherine Auer Reiser, H. Alma Reiser, Arnold Reiser, Theodore G. Reiser, Paul Reiser and Selma Reiser, praying for the settlement of final account of said decedent, as devised by will, and that all persons interested appear before the said court to show cause why an order should not be granted to convey so much as shall be necessary, of the following described real estate of said decedent, to-wit: That part of lot 1, block 47, plat A, Salt Lake City survey, Salt Lake County, Utah, commencing at the southwest corner of said lot; thence running north 12 feet; thence east 100 feet; thence south 12 feet; thence west 100 feet to the place of beginning; has been set for hearing on Friday, the 1st day of April, A. D. 1910, at 2 o'clock p. m., at the county court house, in Salt Lake City, Salt Lake County, Utah.

Witness the clerk of said court, with the seal thereof affixed, this 19th day of March, A. D. 1910.

MARGARET ZANE WITCHER, Clerk.

By L. P. Palmer, Deputy Clerk.

Thurman, Wedgwood & Irvine, Attorneys for Petitioner.

Sale of County Property.

NOTICE—ACTING UNDER AUTHORITY conferred by the board of county commissioners of Salt Lake County, Utah, and in accordance with the provisions of subdivision 35, section 51, compiled laws of Utah, 1907, the undersigned hereby gives notice that on Friday, the 26th day of March, A. D. 1910, at 10 o'clock a. m., there will be offered for sale at public auction, to the highest bidder for cash, the following described real property belonging to said Salt Lake County, the same being no longer required for public use:

Commencing at the southwest corner of lot 2, block 67, plat A, Salt Lake City survey, and running thence north 12 rods; thence east 10 rods; thence south 12 rods; thence west 10 rods to the place of beginning; in Salt Lake City, Salt Lake County, State of Utah.

Said county reserves the right to reject any and all bids.

By order of the board of county commissioners of Salt Lake County, Utah, March 7, 1910.

MARGARET ZANE WITCHER, County Clerk.

Dated March 7, 1910.

## Notice of Assessment No. 7.

THE BROWNSTONE MINING COMPANY, Principal place of business, Salt Lake City, Utah.

Notice is hereby given that at a meeting of the directors, held on the 10th day of March, 1910, the company has adopted a plan of assessment of one-half of one cent per share on the capital stock of said corporation, payable to William G. Ford, secretary, 81 East Seventeenth South street, Murray, Utah, or at the office of Dr. H. J. Smith, over Murray State bank, Murray, Utah.

Any stock upon which this assessment may remain unpaid on the 15th day of April, 1910, shall be delinquent and subject to sale at public auction, and unless payment be made before will be sold on the 15th day of June, 1910, at 11 o'clock a. m., to pay the delinquent assessment, together with the cost of advertising and expense of sale.

WM. G. FORD, 81 East Seventeenth South, Murray, Utah.

## Assessment No. 2.

THE SOUTH COLUMBUS CONSOLIDATED Mining company, Office and principal place of business, Salt Lake City, Utah.

Notice is hereby given that at a meeting of the directors of the South Columbus Consolidated Mining company, held on the 21st day of February, A. D. 1910, at the office of the corporation, room 518 Herald Building, Salt Lake City, Utah, an assessment of two cents per share was levied upon the capital stock of the corporation, payable on or before the 15th day of April, A. D. 1910, at 11 o'clock a. m., to the secretary of the corporation, room 518 Herald Building, Salt Lake City, Utah.

Any stock upon which this assessment may remain unpaid on the 30th day of April, 1910, shall be delinquent and subject to sale at public auction, and unless payment be made before will be sold on the 30th day of June, 1910, at 11 o'clock a. m., to pay the delinquent assessment, together with the cost of advertising and expense of sale.

ARTHUR MAGOIN, Secretary South Columbus Consolidated Mining company, office room 518 Herald Building, Salt Lake City, Utah.

## Assessment No. 3.

COLUMBUS CONSOLIDATED MINING company, Office and principal place of business, rooms 20-2 Judge building, Salt Lake City, Utah.

Notice is hereby given that at a meeting of the board of directors of the Columbus Consolidated Mining company, held on the 10th day of March, A. D. 1910, at the office of the corporation, rooms 20-2 Judge building, Salt Lake City, Utah, an assessment of twenty-five (25) cents per share was levied upon the capital stock of the corporation, payable on or before the 15th day of April, 1910, at 11 o'clock a. m., to the secretary of the corporation, at the office of the corporation, rooms 20-2 Judge building, Salt Lake City, Utah.

Any stock upon which said assessment shall not be paid on or prior to April 15th, 1910, shall be delinquent and will be advertised for sale at public auction on Wednesday, April 20th, 1910, at 11 o'clock a. m., to pay the delinquent assessment, together with the cost of advertising and expense of sale.

Secretary and Treasurer Columbus Consolidated Mining Company, Office 20-2 Judge Building, Salt Lake City, Utah.

## ERECTING DIGS IN SULPHUR OIL FIELD

Several Companies Are Active, With Many Experts Testing Possibilities.

Winnemucca, Nev., March 20.—Mike Blake came in yesterday on his way to Portland on business regarding the oil industry at Sulphur. He reports the C. D. D. Oil company is clearing the ground to erect its derrick within a few feet of the Western Pacific well. As soon as several carloads of lumber and other supplies arrive work will begin and be pushed without cessation in sinking well No. 1. A carload of lumber arrived yesterday.

The Sittling Bulk company of Reno has a standard rig, capable of sinking 3,000 feet, together with lumber and all accessories on the way to Sulphur.

With the continuance of warm dry weather such as we are now having, the new town of Sulphur will become very active. One may stand on the railroad office and look in almost any direction for miles, and see men either doing assessment work or prospecting. Such a sight naturally entitles a prospector or inventor. Experts are arriving to examine the field. Few will express a decided opinion, but it is evident that the prospects are pleasing.

E. A. Edwards, an oil expert of high standing in California, who has been here some time to examine and report on the Black Rock oil fields. He built the refineries for the Union Oil company in San Luis Obispo county, California, and will build one at Sulphur as soon as enough oil is developed to warrant it. He also says that any amount of California capital is ready to come in and develop the field as soon as it is proven to justify it.

A. P. Kensler and W. J. Wred, who own about 500 acres of oil land near Sulphur, report much activity in the town and many strange faces appearing in the camp. Superintendent Macfarlane of the Nevada Sulphur company, arrived from the Sulphur works yesterday on business connected with this company.

With the brilliant oil prospects in the Black Rock oil fields and new and surprising gold strikes at National, with large sections yet to be heard from, the future for Winnemucca and Humboldt county looks good.

## CHARACTERISTIC ORE IN EAST PRINCE SHAFT

Assay returns from the ore recently encountered at the depth of 200 feet in the shaft of the East Prince Mining company, in Potosi district, show values of 6.3 ounces in silver, 6.7 per cent lead and 1.75 per cent copper, or total value of \$43.5 a ton. No solid body of the ore has yet been encountered; it occurs in connection with soft porphyry, which in that section affords excellent indication that bodies of good ore will be found on the contact.

## REGARDS CHAFEE PROMISING CAMP

District's Mineral Formation is Said to Favor Making Big Mines.

H. S. Jessup has returned from the Chafee district, where he has been inspecting some of the properties in the east range of mountains north of Chafee. Mr. Jessup is favorably impressed with that district and believes its future outlook is exceptionally good. He says that the great mineral-bearing formations, porphyries, quartzites, schists, etc., are found associated with gold values throughout the entire district. This condition is more evident in that portion of the district ranging north from Natchez Pass to the Old Lang Syne mine. In this portion of the district, which is about three miles in length and about one mile in width, the structure of the mineral formation is massive and more pronounced.

Placer gold may be found in any of the gulches leading from the mountains above. In earlier years the gulches have been worked, and the structure of the mineral formation is massive and more pronounced.

Black Hole Nearly Suspends. Little prospecting or mining is being done in the district at the present time, this owing to the unusually severe weather and snowfall during the winter months. The Black Hole mine, near the town of Chafee, has practically suspended operations. In a great measure this is due to the inability of the present owner to save the sulphur values contained in the ores. This company is now contemplating the erection of a modern mill and leaching process. At the present time the Black Hole mine is working only a few men blocking out ore and sucking the higher grade ore.

It is not the higher grade ores, however, in the opinion of Mr. Jessup, that will eventually carry fame to this district, but the larger bodies of lower grade milling ores. In his opinion this district will, when developed, rank with the best in the history of Nevada's gold mining industry.

## GIROUX'S BIG SHAFT IS NEARING 1,200 LEVEL

Boston, March 20.—Two compartments of the Giroux company's new shaft have been sunk 100 feet below the 1,000-foot level and the shaft is being driven to the 1,200-foot level. The shaft is being driven to the 1,200-foot level. The shaft is being driven to the 1,200-foot level.
